

I am against the LPFM expansion service. I currently listen to K-LOVE and was greatful when they established service in North Carolina after I moved from California. There is no other radio station I want to listen to. The clean, Christian broadcasting is what I want. K-LOVE is a benefit to the community by encouraging everyone in brotherly love, to care about one another and by serving the community. I would not have any reason to listen to the radio if not for K-LOVE.
